

Since its founding in 2005, Hibat Al-Basrah has achieved numerous milestones, reflecting its commitment to excellence and innovation. In 2008, the company completed the Al Maquil Water Treatment Plant and constructed Mitham Al-Tammar School, significantly enhancing local infrastructure. By 2009, Hibaa Al-Basrah had repaired the Al-Faiha Bridge and established a gas station in Wasit Governorate, further demonstrating its capabilities. In 2010, the company maintained the Waste Water Treatment Plant in Boca Base, ensuring its efficient operation. The construction of a water network in Shuaiba Refinery followed in 2013. More recently, in 2020, Hibat Al-Basrah developed the Medical Breathing Building Centre in Al Hartha and, in 2023, established modern infrastructure for the University of Technology in Basra, continuing its legacy of impactful projects.

Welcome to Hibat Al-Basrah, where excellence meets innovation in the realm of civil, mechanical, and electrical contracting. Our company is committed to transforming the landscape of Iraq through high-quality, reliable, and sustainable construction solutions. Whether it's a residential development, an industrial installation, or a major infrastructure project, we bring unmatched expertise and dedication to every endeavor.

# About Us

## Overview

Founded in 2005, Hibat Al-Basrah is a leading company in Iraq specializing in civil, mechanical, and electrical contracting services. With nearly two decades of experience, we have built a reputation for delivering high-quality and reliable services across various sectors, including residential, commercial, industrial, and infrastructure projects.

*Over the years, we have continually adapted to the changing needs of the industry, embracing new technologies and methodologies to enhance our services. Our ability to innovate and evolve has been a cornerstone of our sustained growth and success.* We have built a robust portfolio of completed projects, each a testament to our dedication and expertise.

Our history is marked by a series of milestones that reflect our growth and achievements:

**Expansion into new sector:** As our capabilities grew, we diversified our services to include a broader range of civil, mechanical, and electrical contracting solutions.

**Strategic partnerships:** We forged alliances with leading companies and organizations to leverage our strengths and enhance our project delivery.

**Commitment to sustainability:** We integrated sustainable practices into our operations, ensuring that our projects contribute positively to the environment and communities.

**Today, Hibat Al-Basrah stands as a leader in the contracting industry, proud of our heritage and excited about our future**

At Hibat Al-Basrah, our success is built on a foundation of core values that prioritize integrity, quality, safety, and customer satisfaction. Our team of skilled professionals leverages cutting-edge technology and industry best practices to deliver projects that not only meet but exceed our clients' expectations.

Join us on our journey to build a brighter future, one project at a time. With Hibat Al-Basrah, you can trust that your vision will be realized with precision, professionalism, and a commitment to excellence.

## Our History

Hibat Al-Basrah has grown to become a distinguished name in Iraq's contracting industry, renowned for our commitment to quality and innovation. Our journey began with a vision to provide exceptional civil, mechanical, and electrical contracting services that would contribute to the development and modernization of Iraq.

From our humble beginnings, we embarked on our first projects with a clear focus on delivering excellence. Our early successes laid the groundwork for our expansion into larger and more complex projects, spanning residential, commercial, industrial, and infrastructure sectors. Each project we undertook reinforced our reputation for reliability, precision, and customer satisfaction.

# Vision and Mission

## Vision

To be a premier contracting company recognized for excellence in service, innovation, and sustainable development in Iraq and beyond.

## Mission

To deliver superior contracting services that exceed client expectations through innovative solutions and cutting-edge technology, while fostering a safe, rewarding work environment and contributing positively to the communities we serve.

## Core Values

**Integrity:** We uphold the highest standards of integrity in all our actions.

**Innovation:** We continuously seek new and better ways to deliver our services.

**Quality:** We are committed to delivering outstanding quality and achieving the highest standards in our projects.

**Sustainability:** We strive to minimize our environmental impact and promote sustainable practices.

**Safety:** We prioritize the safety of our employees, clients, and communities.

# Creative Team

At Hibat Al-Basrah, our strength lies in our creative team of dedicated professionals who bring a wealth of experience, expertise, and passion to every project. Our team is composed of talented engineers, architects, project managers, and skilled technicians who work collaboratively to deliver innovative and high-quality contracting solutions.

## Leadership and Expertise:

Our leadership team is at the forefront of driving our vision and mission. With years of industry experience, they guide our company with strategic insight and a commitment to excellence. Their expertise ensures that every project is executed with precision and meets the highest standards of quality and safety.

## Innovation and Collaboration:

Our creative team thrives on innovation and collaboration. We encourage our team members to think outside the box and develop cutting-edge solutions that address the unique challenges of each project. By fostering a collaborative environment, we ensure that every team member's ideas and skills contribute to the success of our projects.

## Professional Development:

We believe in continuous learning and professional development. Our team members regularly participate in training programs, workshops, and industry conferences to stay updated with the latest advancements and best practices in the contracting field. This commitment to growth enables us to maintain our competitive edge and deliver exceptional results.

## Client-Centered Approach:

Our creative team is dedicated to understanding and exceeding our clients' needs. We work closely with our clients throughout every phase of the project, from initial planning to final execution, ensuring clear communication and a shared vision. Our client-centered approach allows us to build strong, lasting relationships based on trust and mutual success.

At Hibat Al-Basrah, our creative team is not just a group of professionals; we are a family united by a shared passion for building a better future. Together, we bring innovation, expertise, and a relentless commitment to excellence to every project we undertake.

# Working Process

At Hibat Al-Basrah, our working process begins with a comprehensive consultation to understand our clients' needs and vision. We gather detailed requirements, conduct site assessments, and collaborate closely with clients to establish clear project objectives and timelines. Our creative team then develops innovative design solutions, ensuring all plans comply with regulatory standards and are optimized for functionality and aesthetics.

## Ensuring Excellence: Budgeting, Scheduling, & Quality Control

The budgeting and scheduling phase involves preparing a detailed budget and timeline, providing transparency and ensuring the project stays on track. Our skilled professionals manage all aspects of construction, from material procurement to on-site supervision and quality control. We prioritize quality assurance and safety, conducting regular inspections and adhering to strict safety protocols.

Our commitment to sustainability is integrated into every phase of our working process. We implement eco-friendly practices and utilize sustainable materials to minimize our environmental impact. By prioritizing sustainability, we not only enhance the long-term value of our projects but also contribute positively to the communities we serve.

## Communication, Inspection, & Support Excellence

Throughout the project, we maintain open communication with clients through regular updates and progress reports. Upon completion, we conduct a thorough final inspection to ensure all standards are met before handing over the completed project. We also offer post-completion support and maintenance services to ensure the longevity and performance of our work, fostering a continued relationship built on trust and excellence.

# Why Choose Us ?

Choosing Hibat Al-Basrah means partnering with a company that is committed to excellence, innovation, and customer satisfaction. Here are some key reasons why we are the ideal choice for your contracting needs:

**Proven Track Record:** We have a strong history of delivering high-quality projects on time and within budget across various sectors, including residential, commercial, industrial, and infrastructure.

**Expert Team:** Our team of skilled professionals, including engineers, architects, and project managers, ensures innovative and technically proficient solutions for all projects.

**Commitment to Quality and Safety:** We adhere to stringent quality control measures and rigorous safety protocols to ensure the highest standards and a safe working environment.

**Transparent Communication and Comprehensive Support:** We maintain open communication with regular updates and offer post-completion support to ensure the longevity and performance of our work, fostering lasting client relationships.

# Our Services

At Hibat Al-Basrah, we offer a diverse range of services including civil, mechanical, and electrical contracting, as well as specialized oil and gas services and comprehensive logistics support. We ensure top-quality construction, maintenance, and innovative solutions tailored to meet the unique needs of each project, driven by our commitment to excellence, safety, and client satisfaction.

At Hibat Al-Basrah, we offer a comprehensive range of services designed to meet the diverse needs of our clients. Our expertise spans multiple sectors, ensuring we provide top-quality solutions tailored to each project's unique requirements. Here are the six key services we provide:

## Civil Contracting

At Hibat Al-Basrah, we offer comprehensive Civil Contracting services, including the construction of residential and commercial buildings, infrastructure development, and road construction and maintenance. Our team ensures each project is completed on time, within budget, and to the highest quality standards, utilizing advanced engineering techniques and technologies.

Our services also encompass structural engineering and site development, ensuring robust and resilient constructions that meet all regulatory standards. With a commitment to excellence and innovation, we deliver solutions that enhance community infrastructure and exceed client expectations.

## Electrical Contracting

Hibat Al-Basrah offers comprehensive Electrical Contracting services, including the design, installation, and maintenance of electrical systems. Our expertise covers power distribution networks, lighting systems, and renewable energy solutions, ensuring safety, efficiency, and regulatory compliance. We use the latest technologies to deliver reliable and sustainable solutions tailored to client needs.

Our team also excels in both low and high-voltage system installations, providing robust electrical infrastructure for various applications. With a focus on quality and innovation, Hibat Al-Basrah enhances operational efficiency and meets the specific requirements of each project.

## Mechanical Contracting

At Hibat Al-Basrah, we provide comprehensive Mechanical Contracting services, including the installation and maintenance of HVAC systems, plumbing, and industrial machinery. Our team ensures optimal performance and energy efficiency, using advanced technologies to meet regulatory standards and client needs.

Additionally, we specialize in fire protection systems, offering design, installation, and maintenance to enhance safety and security. With a focus on quality and innovation, Hibat Al-Basrah delivers reliable mechanical solutions tailored to each project's specific requirements.

## Logistics Services

Hibat Al-Basrah provides comprehensive Logistics Services to streamline operations and improve efficiency. Our offerings include transportation, distribution management, and real-time tracking to ensure timely and cost-effective delivery of goods. We utilize advanced inventory management systems to optimize storage and handling, reducing lead times and costs.

Additionally, we offer extensive logistical support, including warehousing and supply chain management. Leveraging technology and best practices, we maintain visibility and control over the entire logistics process. With a commitment to reliability and efficiency, Hibat Al-Basrah ensures seamless coordination of all logistics activities, supporting our clients' strategic goals.

## Oil & Gas Services

Hibat Al-Basrah offers specialized Oil & Gas Services, focusing on the construction, maintenance, and logistical support for oil and gas facilities. Our expertise includes pipeline installation, rigging, drilling support, and comprehensive oilfield logistics, ensuring safe and efficient operations. We employ advanced engineering techniques and adhere to industry standards to deliver reliable and high-quality solutions that meet the complex needs of the oil and gas sector.

Additionally, we provide tailored logistical support, managing the transportation and supply chain requirements specific to oil and gas operations. Our services ensure seamless coordination and timely delivery of materials and equipment, enhancing operational efficiency and minimizing downtime. With a commitment to safety, quality, and innovation, Hibat Al-Basrah supports the strategic goals of our clients in the oil and gas industry.

At Hibat Al-Basrah, we are dedicated to delivering a comprehensive range of services designed to meet the diverse needs of our clients. Our offerings include general contracting, construction and infrastructure development, mechanical and electrical contracting, fire fighting services, oil and gas sector support, and logistics management. Each of these services is executed with a commitment to quality, safety, and innovation, ensuring that we exceed our clients' expectations and contribute to their success.

# Civil Contracting Services

*At Hibat Al-Basrah, our Civil Contracting services are comprehensive, encompassing a wide range of construction and infrastructure projects. Our expertise in civil contracting ensures that every project is delivered with the highest standards of quality, safety, and efficiency. Here's a detailed overview of our Civil Contracting services:*

## Construction of Residential and Commercial Buildings:

We specialize in the construction of residential complexes and commercial buildings. From apartment buildings and housing developments to office buildings and shopping centers, our team handles every aspect of the construction process. This includes site preparation, foundation work, structural framing, and finishing touches, ensuring that each building is functional, aesthetically pleasing, and built to last.

## Infrastructure Development

Our infrastructure development services focus on creating the essential frameworks that support communities and economies. This includes the construction of roads, bridges, tunnels, and utilities such as water supply and sewage systems. We utilize advanced engineering techniques and the latest technologies to build infrastructure that is safe, durable, and capable of meeting the needs of growing populations.

## Road Construction and Maintenance

We provide comprehensive road construction services, from designing and planning to actual construction and ongoing maintenance. Our expertise includes building highways, urban roads, rural roads, and associated structures like culverts and drainage systems. Regular maintenance services ensure that roads remain in good condition, safe for use, and free from hazards.

## Structural Engineering

Our structural engineering services involve the design, analysis, and construction of buildings and structures. This includes ensuring that structures can withstand environmental stresses and loads, such as wind, earthquakes, and heavy usage. Our team of engineers uses state-of-the-art software and techniques to create safe and resilient structures that comply with all relevant building codes and standards.

## Site Development and Preparation

Before any construction can begin, thorough site development and preparation are essential. This includes land surveying, excavation, grading, and the installation of necessary utilities. Our team ensures that the site is fully prepared to support the planned construction activities, minimizing delays and ensuring a smooth construction process.

## Project Management

Effective project management is crucial to the success of any construction project. We provide comprehensive project management services, overseeing every phase of the project from initial planning to final completion. This includes coordinating with subcontractors, managing budgets and schedules, ensuring compliance with regulations, and maintaining clear communication with clients throughout the project.

***At Hibat Al-Basrah, our Civil Contracting services are designed to meet the unique needs of each project, ensuring timely completion, cost efficiency, and the highest quality standards. Our commitment to excellence and innovation drives us to deliver outstanding results that exceed our clients' expectations.***

# Mechanical Contracting

*At Hibat Al-Basrah, our Mechanical Contracting services are comprehensive and designed to meet the diverse needs of various industries. We specialize in the installation, maintenance, and optimization of mechanical systems, ensuring they operate efficiently and reliably. Here's a detailed overview of our key services:*

## HVAC Systems Installation and Maintenance

We provide complete heating, ventilation, and air conditioning (HVAC) solutions, from design and installation to ongoing maintenance. Our systems are engineered to enhance indoor air quality, provide optimal climate control, and maximize energy efficiency. Regular maintenance services ensure that HVAC systems perform at their best, reducing downtime and extending their lifespan.

## Plumbing Systems

Our plumbing services cover the installation and maintenance of water supply and drainage systems for residential, commercial, and industrial buildings. We ensure that all plumbing installations meet regulatory standards and are designed for durability and efficiency. Our team is equipped to handle everything from minor repairs to major installations, ensuring reliable and safe water management.

## Fire Protection Systems

We design, install, and maintain comprehensive fire protection systems, including sprinklers, fire alarms, and suppression systems. Our solutions are tailored to meet the specific needs of each facility, ensuring maximum safety and compliance with fire safety regulations. Regular inspections and maintenance services are provided to keep these critical systems operational and effective.

## Industrial Machinery Installation and Maintenance

We offer services for the installation and maintenance of industrial machinery, ensuring that equipment operates efficiently and reliably. Our team has the expertise to handle complex machinery and systems, providing solutions that minimize downtime and enhance productivity. Maintenance programs are tailored to the specific needs of each client, ensuring optimal performance and longevity of machinery.

## Renewable Energy Solutions

Our mechanical contracting services also extend to renewable energy solutions, including the installation of solar thermal systems and other sustainable technologies. We are committed to helping our clients reduce their environmental footprint and achieve greater energy independence through innovative and sustainable solutions.

## System Upgrades and Retrofits

In addition to new installations, we also specialize in upgrading and retrofitting existing mechanical systems. This includes improving the efficiency of older systems, integrating new technologies, and ensuring compliance with the latest standards and regulations.

***At Hibat Al-Basrah, our Mechanical Contracting services are designed to deliver high-quality, reliable, and efficient solutions tailored to the unique needs of each project. Our commitment to excellence, safety, and innovation ensures that we provide mechanical systems that not only meet but exceed client expectations.***

# Electrical Contracting

*At Hibat Al-Basrah, our Electrical Contracting services are comprehensive and designed to meet the highest standards of safety, efficiency, and innovation. We offer a wide range of services that cater to the diverse needs of residential, commercial, industrial, and infrastructure projects. Here's a detailed overview of our key services:*

## Electrical Systems Design and Installation

We provide complete electrical systems design and installation services for new constructions and renovations. Our team of experienced engineers and electricians creates customized electrical plans that meet the specific requirements of each project. This includes everything from initial design and planning to the installation of wiring, outlets, switchboards, and other essential components.

## Power Distribution Networks

Our expertise extends to the design, installation, and maintenance of power distribution networks. We ensure that electrical power is efficiently and safely distributed across various sectors, including residential complexes, commercial buildings, and industrial facilities. This includes the installation of transformers, substations, and distribution panels.

## Lighting Systems

We offer comprehensive lighting solutions that enhance the functionality and aesthetics of any space. Our services include the design and installation of interior and exterior lighting systems, energy-efficient LED lighting, and automated lighting controls. We ensure that our lighting solutions are both practical and cost-effective, providing optimal illumination while minimizing energy consumption.

## Renewable Energy Solutions

In line with our commitment to sustainability, we provide renewable energy solutions such as solar power installations. Our services include the design, installation, and maintenance of solar panels and associated systems. We help our clients reduce their carbon footprint and achieve greater energy independence through reliable and efficient renewable energy solutions.

## High and Low Voltage Systems

We specialize in both high voltage and low voltage systems, ensuring that all electrical infrastructure is robust and reliable. High voltage services include the installation and maintenance of heavy-duty electrical systems used in industrial and large commercial settings. Low voltage services cover systems such as security, communication, and automation systems that require lower power levels.

## Electrical Maintenance and Repairs

Regular maintenance is crucial for the longevity and safety of electrical systems. We offer comprehensive maintenance services, including routine inspections, testing, and repairs. Our team is equipped to handle emergency repairs and ensure that any issues are promptly addressed to minimize downtime and ensure continuous operation.

## Fire Alarm and Safety Systems

Safety is a top priority in all our electrical contracting services. We design, install, and maintain fire alarm systems and other safety-related electrical systems. These include smoke detectors, emergency lighting, and evacuation systems, ensuring that all safety protocols are met and that facilities are well-protected against potential hazards.

## Automation and Control Systems

We provide advanced automation and control solutions that enhance operational efficiency and convenience. This includes the installation of automated control systems for lighting, HVAC, security, and other building systems, allowing for centralized and remote management.

***At Hibat Al-Basrah, our Electrical Contracting services are designed to provide reliable, efficient, and innovative solutions tailored to the specific needs of each project. Our commitment to quality, safety, and sustainability ensures that we deliver electrical systems that not only meet but exceed client expectations.***

# Logistics Services

*At Hibat Al-Basrah, our Logistics Services are meticulously designed to optimize operations, reduce costs, and enhance efficiency across various sectors. Our comprehensive approach ensures that every aspect of logistics is managed effectively, providing seamless support for our clients' operations. Here's a detailed overview of our key services:*

## Transportation Services

We offer robust transportation solutions to ensure the timely and efficient movement of goods. Our services cover all modes of transportation, including road, rail, sea, and air. We manage everything from planning and route optimization to the execution of transport operations, ensuring that goods are delivered safely and on time. Our fleet of vehicles is equipped with the latest tracking technologies to provide real-time updates and ensure the highest standards of service.

## Distribution Management

Our distribution management services are designed to streamline the flow of goods from suppliers to end customers. We manage the entire distribution process, including warehousing, inventory management, order fulfillment, and last-mile delivery. By optimizing distribution networks and processes, we help our clients reduce costs, improve delivery times, and enhance customer satisfaction.

## Warehousing and Inventory Management

We provide state-of-the-art warehousing solutions that ensure the safe and efficient storage of goods. Our warehouses are equipped with advanced inventory management systems that allow for real-time tracking and management of stock levels. This ensures optimal stock levels are maintained, reducing the risk of overstocking or stockouts. Our services also include warehouse layout design, inventory control, and order processing.

## Supply Chain Management

Our supply chain management services cover the end-to-end management of the supply chain, from procurement to delivery. We work closely with our clients to develop and implement supply chain strategies that align with their business objectives. Our services include supplier management, demand planning, logistics coordination, and performance monitoring. By optimizing the supply chain, we help our clients achieve greater efficiency and cost savings.

## Real-Time Tracking and Reporting

We leverage cutting-edge technology to provide real-time tracking and reporting of logistics operations. Our advanced tracking systems allow clients to monitor the movement of goods at every stage of the supply chain. This transparency ensures that any issues can be promptly addressed, and clients can make informed decisions based on real-time data. Our reporting tools provide detailed insights into logistics performance, helping clients identify areas for improvement.

***At Hibat Al-Basrah, our Logistics Services are built on a foundation of excellence, reliability, and innovation. We are committed to providing customized logistics solutions that meet the specific needs of our clients, driving operational efficiency and supporting their strategic goals. Our dedication to quality and client satisfaction ensures that we deliver logistics services that exceed expectations and contribute to the success of our clients' operations.***

## Customs and Regulatory Compliance

Navigating the complexities of customs and regulatory compliance can be challenging. Our logistics services include comprehensive customs clearance and regulatory compliance support. We ensure that all shipments comply with international trade regulations and standards, minimizing the risk of delays and penalties. Our team is well-versed in the latest regulatory requirements and works diligently to ensure smooth and compliant logistics operations.

## Logistical Support for Specialized Projects

We provide tailored logistical support for specialized projects, including large-scale industrial projects, infrastructure developments, and events. Our services include detailed planning, coordination, and execution of logistics operations specific to the unique requirements of each project. We ensure that all logistical aspects are handled efficiently, allowing our clients to focus on their core business activities.

# Oil & Gas Services

*At Hibat Al-Basrah, our Oil & Gas Services are tailored to meet the complex and demanding needs of the oil and gas industry. We provide a comprehensive suite of services that ensure the efficient, safe, and sustainable operation of oil and gas facilities. Here's a detailed overview of our key services:*

## Construction of Oil and Gas Facilities

We specialize in the construction of various oil and gas facilities, including refineries, processing plants, and storage tanks. Our construction services encompass everything from site preparation and civil works to the installation of mechanical and electrical systems. We ensure that all facilities are built to the highest standards of safety, quality, and environmental compliance.

## Pipeline Installation and Maintenance

Our expertise includes the installation and maintenance of pipelines for the transportation of oil, gas, and other hydrocarbons. We employ advanced technologies and techniques to ensure the integrity and reliability of pipeline systems. Our services cover everything from route planning and environmental impact assessments to construction, testing, and ongoing maintenance.

## Rigging and Drilling Support

We provide comprehensive rigging and drilling support services, ensuring that drilling operations are conducted safely and efficiently. Our services include the supply and maintenance of drilling equipment, rig setup and dismantling, and the provision of skilled personnel. We adhere to strict safety protocols and industry standards to minimize risks and maximize productivity.

## Oilfield Logistics and Supply Chain Management

Efficient logistics and supply chain management are critical to the success of oil and gas operations. We offer tailored logistical support, including the transportation of equipment and materials, warehousing, and inventory management. Our logistics services ensure that all necessary supplies are delivered on time and in optimal condition, supporting continuous and efficient operations.

## Maintenance and Repair Services

Regular maintenance and prompt repair services are essential to maintaining the safety and efficiency of oil and gas facilities. We provide scheduled maintenance programs, emergency repair services, and equipment refurbishment. Our maintenance services are designed to minimize downtime, extend the lifespan of equipment, and ensure compliance with safety and regulatory standards.

## Environmental and Safety Compliance

We are committed to ensuring that all our operations adhere to the highest standards of environmental and safety compliance. Our services include environmental impact assessments, waste management, spill response, and the implementation of safety management systems. We work closely with our clients to develop and implement strategies that minimize environmental impact and enhance safety performance.

## Project Management and Consultancy

Our project management and consultancy services provide comprehensive support for oil and gas projects, from initial planning and feasibility studies to project execution and completion. Our experienced project managers and consultants ensure that projects are delivered on time, within budget, and to the highest standards of quality. We offer expertise in project planning, risk management, procurement, and stakeholder engagement.

***At Hibat Al-Basrah, our Oil & Gas Services are designed to support the efficient and sustainable development of oil and gas resources. Our commitment to excellence, safety, and environmental responsibility ensures that we deliver solutions that meet the specific needs of our clients and contribute to the long-term success of their operations.***

# Projects

Since our inception, Hibat Al-Basrah has successfully completed numerous projects across Iraq. Here are some highlights:

## Establishing the Infrastructure for the University of Technology in Basra (2023)

### Client: Basrah Governorate

In 2023, Hibat Al-Basrah successfully completed a comprehensive infrastructure project for the University of Technology in Basra. This ambitious project aimed to develop state-of-the-art facilities and essential infrastructure to support the academic and research needs of the university.

The project included the construction of modern educational buildings equipped with advanced technological facilities, extensive road networks, and utility systems to ensure efficient campus operations. Our team managed the entire project lifecycle, from initial planning and design to construction and final commissioning, ensuring adherence to the highest standards of quality and safety.

***This project not only enhances the educational infrastructure of Basra but also significantly contributes to the region's development by providing a modern and well-equipped learning environment for students and faculty. The successful completion of this project underscores our commitment to excellence and our capability to deliver large-scale, complex infrastructure projects.***

## Construction of a Water Supply Network for Residential Buildings within the Shuaiba Refinery (2023)

**Client: Basrah Governorate**

In 2023, Hibat Al-Basrah successfully completed the construction of a comprehensive water supply network for residential buildings within the Shuaiba Refinery area. This project aimed to provide a reliable and efficient water distribution system to meet the needs of the residential community associated with the refinery.

The project involved the design and installation of a modern water supply infrastructure that ensures consistent and safe water delivery to all residential units. Our team handled all phases of the project, from initial planning and engineering to construction and final commissioning, maintaining the highest standards of quality and safety throughout.

***This project significantly improves the quality of life for residents within the Shuaiba Refinery area by providing them with a dependable and high-quality water supply system. The successful completion of this project highlights Hibat Al-Basrah's expertise in delivering essential infrastructure projects and our commitment to enhancing community well-being through innovative and sustainable solutions.***

## ***Urgent Treatment Project for Sewage Outlets on the Basra Riverbank (2022)***

***Client: Basrah Governorate***

In 2022, Hibat Al-Basrah undertook a critical environmental project aimed at addressing the urgent need for treating sewage outlets along the Basra Riverbank. This project was essential for improving the sanitary conditions and ecological health of the Basra River, a vital waterway for the local community.

The project involved the implementation of advanced sewage treatment solutions to mitigate the pollution caused by untreated sewage discharges into the river. Our team executed the project with a focus on sustainability, efficiency, and compliance with environmental regulations, ensuring a significant positive impact on the river's water quality and the surrounding environment.

***This urgent treatment project has significantly improved the water quality of the Basra River, helping to restore its ecological balance and providing a cleaner, safer environment for the local population. The successful completion of this project underscores Hibat Al-Basrah's commitment to environmental stewardship and our ability to deliver essential infrastructure projects that address critical public health and environmental challenges.***

## ***Establishing and Rehabilitating Al-Kufa University in Najaf Governorate (2022)***

### ***Client: Najaf Governorate***

In 2022, Hibat Al-Basrah successfully completed the project for establishing and rehabilitating Al-Kufa University in Najaf Governorate. This significant undertaking aimed to enhance the educational infrastructure and provide a modern, well-equipped environment conducive to learning and research for the university's students and faculty.

The project involved both the construction of new facilities and the extensive rehabilitation of existing structures, ensuring that all buildings meet contemporary standards of safety, functionality, and aesthetics. Our team managed the entire process, from initial assessment and planning to construction and final handover, adhering to the highest standards of quality and efficiency.

***This project has significantly transformed Al-Kufa University, providing students and faculty with a conducive environment for academic excellence. The successful completion of this project highlights Hibat Al-Basrah's commitment to advancing educational infrastructure and supporting the growth and development of higher education institutions in Iraq.***

## Establish a Rainwater Drainage Network in Tananir Street (2022)

**Client: Basrah Governorate**

In 2022, Hibat Al-Basrah successfully completed the establishment of a rainwater drainage network in Tananir Street, a vital project aimed at mitigating flooding and improving the drainage infrastructure in the area. This project was essential for enhancing the urban infrastructure and ensuring the safety and well-being of the residents by effectively managing rainwater runoff.

The project involved the design, installation, and optimization of a modern drainage system capable of handling heavy rainfall and preventing water accumulation on streets and public areas. Our team ensured that every aspect of the project was executed with precision and adhered to the highest standards of engineering and environmental safety.

**The successful completion of this project has significantly improved the drainage infrastructure in Tannir Street, reducing the risk of flooding and enhancing the overall quality of life for the residents. Hibat Al-Basrah's commitment to excellence and sustainable development is reflected in the successful execution of this crucial infrastructure project.**

## ***Mechanical Work at the Mahila Water Desalination Plant in Basra (2021)***

### ***Client: Al Dayer United Group***

In 2021, Hibat Al-Basrah undertook a significant project involving mechanical work at the Mahila Water Desalination Plant in Basra. This project was crucial for enhancing the plant's operational efficiency and ensuring a reliable supply of desalinated water to meet the needs of the local population.

The project encompassed a wide range of mechanical services, from the installation and maintenance of critical equipment to the optimization of existing systems. Our team leveraged advanced technologies and industry best practices to ensure that the desalination plant operated at peak performance.

***The successful completion of this project has significantly enhanced the Mahila Water Desalination Plant's capacity to provide clean, desalinated water to the residents of Basra. Hibat Al-Basrah's expertise in mechanical contracting and commitment to excellence have ensured the plant's long-term operational success and reliability.***

## Delivery of Water from Shatt al-Basra to the Samsung Gas Compression Station (2020)

**Client: ENI**

In 2020, Hibat Al-Basrah successfully completed a critical infrastructure project involving the delivery of water from Shatt al-Basra to the Samsung gas compression station. This project was essential for supporting the operational needs of the gas compression station, ensuring a reliable and continuous water supply necessary for various industrial processes.

The project encompassed the design, construction, and commissioning of a robust water delivery system capable of meeting the high demand and operational standards required by the gas compression station. Our team executed the project with precision, adhering to the highest standards of quality and efficiency.

**The successful completion of this project has significantly enhanced the operational efficiency of the Samsung gas compression station, providing it with a reliable and high-quality water supply. Hibat Al-Basrah's commitment to excellence and innovation has ensured the successful delivery of this critical infrastructure project, supporting the strategic goals of our client, ENI.**

## Construction of Medical Breathing Building Centre in Al Hartha (2020)

**Client: Kuwait Energy Company**

In 2020, Hibat Al-Basrah successfully completed the construction of the Medical Breathing Building Centre in Al Hartha. This essential healthcare project was commissioned by Kuwait Energy Company to enhance medical infrastructure and provide critical respiratory care services to the local community, especially in light of the increased demand for respiratory treatment facilities.

The project involved the design and construction of a state-of-the-art medical facility equipped to deliver high-quality respiratory care. Our team managed all aspects of the project, from initial planning and design to construction and final handover, ensuring that the facility met the highest standards of medical care and safety.

**The successful completion of the Medical Breathing Building Centre has significantly enhanced the healthcare infrastructure in Al Hartha, providing essential respiratory care services to the local population. Hibat Al-Basrah's dedication to excellence and innovation in healthcare construction ensured the delivery of a facility that meets the highest standards of medical care and supports the well-being of the community.**

## ***Building a School in the Al-Shafi Area (2018)***

***Client: Basrah Governorate***

In 2018, Hibat Al-Basrah successfully completed the construction of a new school in the Al-Shafi area, commissioned by the Basrah Governorate. This project aimed to enhance educational infrastructure and provide the local community with a modern, well-equipped educational facility. The new school plays a crucial role in fostering learning and development for children in the region.

The project involved a comprehensive approach to design and construction, ensuring that the facility met contemporary educational standards and provided a conducive environment for students and teachers.

***The successful completion of this school has provided the Al-Shafi area with a vital educational institution, significantly improving access to quality education for local children. Hibat Al-Basrah's commitment to excellence in construction and dedication to community development is evident in the successful delivery of this project, which supports the long-term educational needs of the region.***

## Construction of a Refrigeration Warehouse with an Area of 2400 Square Meters (2017)

In 2018, Hibat Al-Basrah successfully completed the construction of a new school in the Al-Shafi area, commissioned by the Basrah Governorate. This project aimed to enhance educational infrastructure and provide the local community with a modern, well-equipped educational facility. The new school plays a crucial role in fostering learning and development for children in the region.

The project involved a comprehensive approach to design and construction, ensuring that the facility met contemporary educational standards and provided a conducive environment for students and teachers.

***The successful completion of this school has provided the Al-Shafi area with a vital educational institution, significantly improving access to quality education for local children. Hibat Al-Basrah's commitment to excellence in construction and dedication to community development is evident in the successful delivery of this project, which supports the long-term educational needs of the region.***

## Project of Transporting Water from the Al-Shu'aiba Pumping Station to the Army Training Center (2013)

**Client: South Refineries Company**

In 2013, Hibat Al-Basrah successfully executed a critical infrastructure project for the South Refineries Company, involving the transportation of water from the Al-Shu'aiba pumping station to the army training center. This project was essential for ensuring a reliable water supply to the training center, facilitating its operations and supporting the needs of the personnel.

The project encompassed the design, construction, and commissioning of a comprehensive water transport system that spanned a significant distance, ensuring efficient and uninterrupted water delivery.

***The successful completion of this project has ensured a stable and efficient water supply to the army training center, supporting its critical operations and enhancing the well-being of its personnel. Hibat Al-Basrah's commitment to excellence, innovation, and sustainability has been demonstrated through the effective delivery of this essential infrastructure project.***

## Construction of Water Network Inside the Shuaiba Refinery (2013)

**Client: South Refineries Company**

In 2013, Hibat Al-Basrah successfully completed the construction of a comprehensive water network within the Shuaiba Refinery for the South Refineries Company. This project was crucial for enhancing the operational efficiency of the refinery by ensuring a reliable and efficient water supply system tailored to the specific needs of the facility.

The project involved meticulous planning, advanced engineering, and the use of high-quality materials to construct a durable and efficient water distribution network

***The successful completion of this water network construction project has significantly improved the operational efficiency and reliability of the Shuaiba Refinery's water supply system. Hibat Al-Basrah's expertise in engineering and construction, combined with a commitment to quality and safety, ensured the delivery of a project that meets the highest industry standards and supports the ongoing success of the South Refineries Company.***

## ***Maintenance of Waste Water Treatment Plant in Boca Base (2010)***

***Client: U.S. Army***

In 2010, Hibat Al-Basrah successfully executed a comprehensive maintenance project for the wastewater treatment plant at Boca Base, under the commission of the U.S. Army. This critical project aimed to ensure the continued efficiency and compliance of the wastewater treatment operations, vital for the environmental health and operational sustainability of the base.

The project involved a detailed inspection, maintenance, and upgrading of key components within the treatment plant to enhance its performance and reliability.

***The successful maintenance and upgrading of the wastewater treatment plant at Boca Base significantly improved its operational efficiency and reliability, ensuring the facility met all environmental and safety standards. Hibat Al-Basrah's expertise in wastewater management and commitment to quality ensured the project was completed to the highest standards, supporting the sustainability and operational needs of the U.S. Army at Boca Base.***

## Repair of Al-Swaib Bridge in Basrah (2009)

**Client: U.S. Army**

In 2009, Hibat Al-Basrah successfully completed a crucial infrastructure project involving the repair of the Al-Swaib Bridge in Basrah, commissioned by the U.S. Army. This project was vital for restoring the structural integrity and functionality of the bridge, which is a key transportation link in the region.

The project involved a comprehensive approach to repairing and reinforcing the bridge to ensure its long-term durability and safety.

**The repair of the Al-Swaib Bridge greatly enhanced its structural integrity and safety, ensuring it remains a crucial transportation link in Basrah. Hibat Al-Basrah's proficiency in civil engineering and unwavering dedication to quality and safety were pivotal in the successful execution of this significant infrastructure project for the U.S. Army.**

## Repair of Al-Faiha Bridge in Basrah (2009)

**Client: U.S. Army**

In 2009, Hibat Al-Basrah successfully carried out a crucial repair project on the Al-Faiha Bridge in Basrah, commissioned by the U.S. Army. This project was essential for restoring the bridge's structural integrity and ensuring it continued to serve as a vital transportation route in the region.

The project involved comprehensive repairs and reinforcements to address damage and enhance the bridge's durability and safety.

**The repair of the Al-Faiha Bridge greatly bolstered its structural integrity and safety, ensuring its continued role as a vital transportation route in Basrah. The success of this project was largely due to Hibat Al-Basrah's civil engineering expertise and unwavering commitment to quality and safety, which were crucial in delivering this important infrastructure project for the U.S. Army.**

## Modifying and Renovating the AMC LSA Compound at Camp Basrah, Iraq (2009)

**Client: U.S. Army**

In 2009, Hibat Al-Basrah successfully completed the modification and renovation of the AMC LSA (Logistics Support Area) Compound at Camp Basrah, Iraq. This project was commissioned by the U.S. Army to enhance the functionality, safety, and living conditions of the compound, ensuring it met the operational needs of military personnel stationed there.

The project involved a comprehensive overhaul of the existing facilities, incorporating modern design elements and updated infrastructure to improve overall efficiency and comfort

**The successful modification and renovation of the AMC LSA Compound significantly improved the living and working conditions for military personnel at Camp Basrah. Hibat Al-Basrah's expertise in construction and project management, combined with a commitment to quality and safety, ensured the successful delivery of this vital infrastructure project for the U.S. Army.**

## Construction of Al Maqal Water Treatment Plant, Basrah, Iraq (2009)

**Client: U.S. Army**

In 2009, Hibat Al-Basrah successfully completed the construction of the Al Maqal Water Treatment Plant in Basrah, Iraq, commissioned by the U.S. Army. This critical infrastructure project was designed to provide a reliable and sustainable source of clean water for the local population and military personnel stationed in the area.

The project involved the design, construction, and commissioning of a state-of-the-art water treatment facility capable of processing and purifying large volumes of water to meet the highest standards of quality and safety.

**The successful construction of the Al Maqal Water Treatment Plant has significantly improved access to clean and safe water for the residents of Basrah and military personnel. Hibat Al-Basrah's expertise in water treatment and commitment to quality and sustainability ensured the successful delivery of this vital infrastructure project for the U.S. Army.**

## ***Building a Camp for the U.S. Army in Al-Shalamcha Area, Basrah (2009)***

### ***Client: U.S. Army***

In 2009, Hibat Al-Basrah undertook and successfully completed the construction of a military camp for the U.S. Army in the Al-Shalamcha area of Basrah. This project was crucial for establishing a secure, functional, and well-equipped base to support the operational needs of the U.S. Army in Iraq.

The project involved comprehensive planning, design, and construction to ensure the camp met the high standards required for military operations.

***The successful completion of the camp in Al-Shalamcha provided the U.S. Army with a secure and fully functional base to support their operations in Iraq. Hibat Al-Basrah's commitment to excellence, quality, and safety was pivotal in delivering this important project, which significantly contributed to the operational effectiveness of the U.S. Army in the region.***

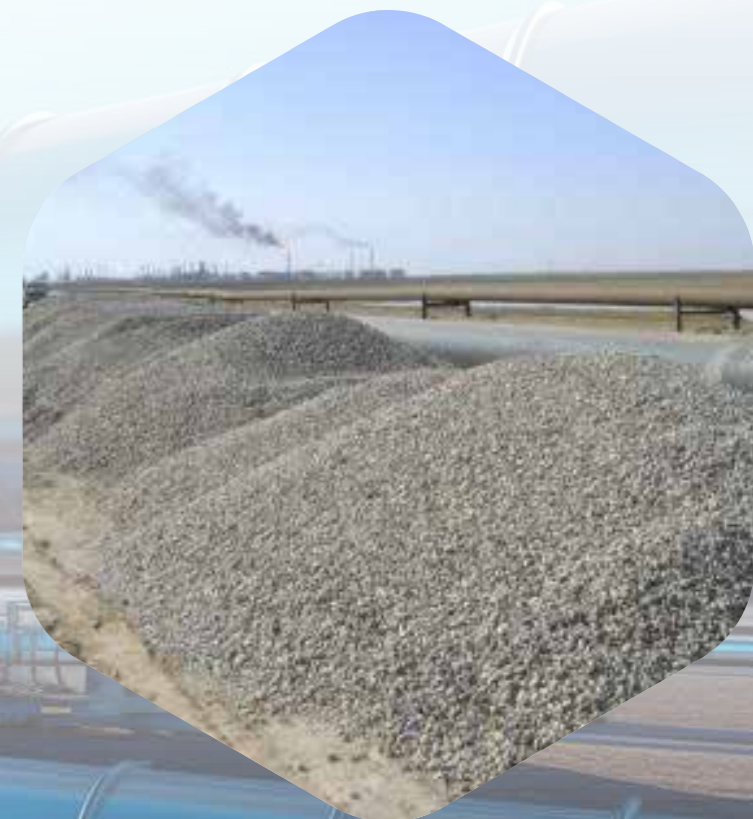

## Laying a Polyethylene (HDPE) Pipe for Transporting Petroleum Derivatives Waste (2008)

**Client: South Refineries Compan**

In 2008, Hibat Al-Basrah successfully completed a critical infrastructure project involving the installation of a high-density polyethylene (HDPE) pipeline for the transportation of petroleum derivatives waste. Commissioned by the South Refineries Company, this project aimed to provide a reliable and environmentally sound solution for the disposal of petroleum byproducts.

The project required meticulous planning and execution to ensure the pipeline met the stringent standards for safety and efficiency necessary for handling hazardous waste.

**The installation of the HDPE pipeline successfully equipped the South Refineries Company with a dependable and efficient system for transporting petroleum derivatives waste. Hibat Al-Basrah's specialized knowledge in pipeline construction and unwavering dedication to quality and safety played a crucial role in the execution of this vital infrastructure project, enhancing both environmental management and operational efficiency.**

## ***Establishment of a Gas Station in Wasit Governorate, Iraq (2008)***

***Client: South Refineries Compan***

In 2008, Hibat Al-Basrah successfully completed the establishment of a gas station in Wasit Governorate, Iraq, commissioned by the U.S. Army. This project was crucial for providing a reliable fuel supply infrastructure to support military operations and local needs in the region.

The project involved comprehensive planning, construction, and commissioning to ensure the gas station met high standards of safety, efficiency,

***The successful establishment of the gas station in Wasit Governorate provided a vital infrastructure to support military operations and local fuel needs. Hibat Al-Basrah's expertise in construction and project management, combined with a commitment to quality and safety, ensured the successful delivery of this essential infrastructure project for the U.S. Army.***

## Construction of Mitham Al-Tammar School in Basrah (Al-Madina District) (2008)

**Client: U.S. Army**

In 2008, Hibat Al-Basrah successfully completed the construction of Mitham Al-Tammar School in the Al-Madina District of Basrah, commissioned by the U.S. Army. This project was aimed at enhancing educational infrastructure and providing a modern, well-equipped learning environment for the local community.

The project involved comprehensive planning, design, and construction to ensure the school met high standards of safety, functionality, and educational support.

**The successful completion of Mitham Al-Tammar School has provided the Al-Madina District with a vital educational institution, significantly improving access to quality education for local children. Hibat Al-Basrah's expertise in construction and project management, combined with a commitment to quality and safety, ensured the successful delivery of this important infrastructure project for the U.S. Army.**

## Leadership

Our team is led by seasoned professionals with extensive experience in the contracting industry. Under their guidance, Hibat Al-Basrah has grown from a small startup to a leading company with a reputation for excellence.

## Safety and Quality Assurance

At Hibat Al-Basrah, safety and quality are paramount. We adhere to strict safety protocols and quality control measures to ensure the well-being of our employees and the success of our projects. Our commitment to these principles has earned us numerous certifications and accolades.

## Company Equipment and Machinery

Hibat Al-Basrah is equipped with a wide range of modern machinery and equipment to ensure efficient execution of diverse construction and contracting projects. Our fleet includes excavators, bulldozers, cranes, asphalt pavers, rollers, concrete mixers and pumps, drilling rigs, pile drivers, and utility equipment like generators, compressors, and welding machines. We also have transport vehicles such as trucks and trailers, as well as forklifts for material handling. All machinery is regularly maintained to ensure optimal performance, reflecting our commitment to quality, safety, and timely project delivery.

*At Hibat Al-Basrah, we believe that innovation and excellence are the cornerstones of our success. Every project we undertake is an opportunity to push boundaries and set new standards in the contracting industry.* Our team is dedicated to exploring new technologies and methodologies to deliver cutting-edge solutions that exceed our clients' expectations. We are committed to continuous improvement, ensuring that we stay at the forefront of industry advancements and deliver outstanding results every time.

”

***Innovating Today, Building Tomorrow, Empowering Communities with Excellence***

# Partnering with Global Brands

At Hibat Al-Basrah, we believe that the foundation of excellence lies in the quality of materials and products we use in our projects. To ensure that we deliver the highest standards of construction and contracting services, we have established strong partnerships with some of the most reputable global and regional brands. This commitment to sourcing top-tier products from internationally recognized manufacturers ensures the durability, reliability, and efficiency of our projects.

## Our Trusted Partners Include:

### United Cable Industries Company

Renowned for their high-quality cables and wiring solutions, United Cable Industries Company provides us with reliable electrical components that enhance the safety and efficiency of our installations.

### Dura Line

Dura Line is a leading manufacturer of high-density polyethylene (HDPE) pipes, offering robust and reliable solutions for our water and telecommunications projects.

### FARASSAN

Specializing in fiberglass reinforced plastic (FRP) products, FARASSAN supplies durable and corrosion-resistant materials essential for our industrial applications.

### Rovati Pompe

Rovati Pompe is known for their high-performance pumps, which ensure the optimal functionality of our water and wastewater management systems.

### L.M.I Valves

Providing advanced valve solutions, L.M.I Valves enhances the efficiency and safety of our fluid control systems in various projects.

### SEOCA Water Pump

SEOCA's high-quality water pumps are integral to our water treatment and distribution systems, ensuring reliable performance and long-term durability.

### Satec

Satec offers innovative electrical measurement and energy management solutions, helping us integrate advanced technologies into our projects.

### ESPA

Known for their energy-efficient water pumps and filtration systems, ESPA products are crucial for our sustainable water management initiatives.

### JADAWEL AL-FURAT

JADAWEL AL-FURAT supplies high-quality plastic pipes, ensuring the reliability and efficiency of our water distribution networks.

### ARISON

Known for their energy-efficient water pumps and filtration systems, ESPA products are crucial for our sustainable water management initiatives.

### ATLAS TECHNICAL GROUP

ATLAS TECHNICAL GROUP offers a range of industrial and technical services that enhance the quality and performance of our projects.

### KHUDAIRI GROUP

KHUDAIRI GROUP supplies a variety of construction and industrial products, ensuring we have access to the best materials for our projects.

### ARAJEEZ

Specializing in construction materials and solutions, ARAJEEZ supports our projects with high-quality products tailored to our needs.

### Ebitt Group of Companies

Ebitt Group provides a wide range of industrial and engineering products, enhancing the operational efficiency of our projects.

### BATU GRUP

BATU GRUP offers comprehensive construction and industrial solutions, supporting our projects with innovative and reliable products.

## Why We Choose Trusted Brands?

**Reliability:** Partnering with established brands guarantees the reliability and longevity of the products we use.

**Innovation:** Access to the latest technological advancements allows us to incorporate cutting-edge solutions into our projects.

**Quality Assurance:** Products from renowned brands undergo rigorous testing and quality control, ensuring they meet the highest industry standards.

**Sustainability:** Many of our partners are leaders in sustainable practices, helping us reduce our environmental footprint and promote green building solutions.

Our collaboration with these trusted brands underscores our commitment to excellence and ensures that every project we undertake is built to last. By choosing Hibaa Al-Basrah, you are assured of the highest quality workmanship supported by the best products in the industry.

# Commitment to Excellence: Our ISO Certifications

At Hibaa Al-Basrah, we are proud to hold three prestigious ISO certifications that reflect our dedication to quality, environmental management, and occupational health and safety. These certifications demonstrate our adherence to international standards and our continuous efforts to improve our processes and performance.

## ISO 9001: Quality Management Systems

The ISO 9001 certification showcases our commitment to delivering high-quality services and products. It ensures that our quality management systems are effective and consistently meet customer and regulatory requirements. This certification emphasizes our focus on continuous improvement and customer satisfaction.

## ISO 14001: Environmental Management Systems

The ISO 14001 certification highlights our commitment to environmental sustainability. It ensures we have an effective environmental management system in place, allowing us to minimize our environmental impact, comply with regulations, and continuously improve our performance.

## ISO 45001: Occupational Health and Safety Management Systems

The ISO 45001 certification underscores our commitment to ensuring the health and safety of our employees, clients, and stakeholders. This certification ensures we have a robust occupational health and safety management system aimed at preventing work-related injuries and illnesses.
